ABOUT PROVINCE BUILDING, CO.

At Province, Inc. we believe in employing a true team approach between the builder and the customer, letting your ideas flourish in a comfortable environment that unites your lifestyle throughout the design and build process. You can count on our commitment to service and attention to detail, which is the basis for our solid reputation.

We are always available for onsite walkthroughs and consultation at our design center. Work with us during the early stages of the design process to determine the unique items and custom options that you would like to incorporate into your new home. Imagine discovering the perfect balance of wall color to compliment your hand-scraped hardwood flooring, choosing custom cabinets and a tile backsplash for your gourmet kitchen, and finding the perfect light fixtures to set your house aglow.

Most of our contractors have been involved with Province for years and understand that quality is our preeminent concern. Each of our craftsmen is accomplished in their expertise, and their skill shines throughout your home. To insure your satisfaction, Paul and Brenda personally scrutinize every detail.

When you decide to build your custom home with Province, you receive the personal consideration of a team that knows how to turn your dreams into a beautiful custom home. We are proud of our track record in Northern Colorado and Harmony because our work here epitomizes the quality upon which our legacy stands.
